

E View A-2

The thinnest A2 viewer in the world only 34mm thick! It is light and portable enough to be mounted on a wall vertically or horizontally.

A clear and sharp image of any x-ray (single, panoramic or CT) displayed is the result of advance technology of even light that's distributed throughout the panel as powerful as 6000 candles. Giving duration of 10,000-hour lamp life, powered by 115V.

***Eview* - viewer panel size 600mm x 420mm**

***Eview* full size 700mm X 520mm.**
